SKILLS

- **Languages**: C++, Java, Python (Pandas, NumPy), SQL
- **Data Analysis:** Excel, Power BI, Data Cleaning, Data Visualization
- **Tools/Platforms:** Git/GitHub, VSCODE, Microsoft Excel , Power BI
- **Soft Skills**: Problem-Solving, Team Collaboration, Time Management, Adaptability, Effective Communication

PROJECTS

CareerTwin AI - Resume Intelligence & Job Matching System | Github Nov 2025- Dec 2025

- Objective: Develop an AI-based system to analyze resumes and recommend suitable job roles using NLP and similarity models.
- Details: Built a platform that extracts skills from resumes, calculates a resume strength score, and matches profiles with relevant jobs using transformer-based embeddings and cosine similarity.
- Outcome**:** Automated resume evaluation with job matching and skill gap identification to help users improve job readiness.

  Tech stack: Python, NLP, Sentence Transformers, Streamlit, Pandas, Plotly, Machine Learning**.**

Password Strength Classifier | GitHub Sep 2024– Oct 2024

- Objective**:** Built an ML-based system to evaluate and classify password strength (Weak, Moderate, Strong) using rule-based features and machine-learning techniques.
- Details**:** Implemented data preprocessing, feature extraction (length, entropy, character patterns), and trained models such as Logistic Regression and Random Forest. Built a simple UI to input passwords and display strength predictions.
- Outcome**:** Improved password security awareness by providing instant feedback and guiding users to create stronger, more secure passwords.

  Tech stack: Python, Scikit-learn, NumPy, Pandas

College Enrollment Insight | GitHub Nov 2025- Dec 2025

- Objective: Convert raw government enrollment data into interactive visual insights and support data-driven decisions in education.
- Details: Analyzed college-wise student enrollment, study gender and social category distribution using filters , slicers.
- Outcome**:** Clear view of overall enrollment, Identification of gender and category disparities.

  Tech stack: Power BI, Government Dataset , Power Query , Charts, KPI Cards, Slicers

TRAINING

Machine Learning Made Easy – From Basics to AI Application| Lovely Professional University Jun 2025 - Jul 2025

Machine Learning Trainee | Certificate

- Built and optimized machine learning models through data cleaning, feature preparation, and algorithm selection using Python.
- Employed NumPy, Pandas, Matplotlib, Scikit-learn, and TensorFlow to train, test, and evaluate ML workflows.
- Analyzed results, improved model accuracy, and applied ML techniques to solve practical, data-driven problems.

  Tech stack: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow

CERTIFICATES

- Fundamentals of Prompt Engineering | Infosys Aug 2025
- Cloud Computing | NPTEL Oct 2025
- Python certification from Scaler | Scaler Feb 2025
- Operating System Fundamentals |Coursera Sep 2024

ACHIEVEMENTS

- **Diamond League In Google Arcade** Jan 2024 – Aug 2025
  A hands-on cloud learning program. Earned multiple badges and certificates by completing real-world labs and projects
- **3-Star in Python on HackerRank:** Nov 2023 – Mar 2024
  Achieved a 3-star rating in Python on HackerRank, showcasing advanced problem-solving skills and proficiency in programming.
- **Oracle Cloud Application Challenges training completion badge** Nov 2024 – Dec 2024

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.3** Aug' 2023 – Jul' 2027
- **Krishnamurthy World School** Cuttack, Odisha
  Intermediate; **Percentage: 80%** Apr' 2021 – Mar' 2023
- **Cambridge School** Cuttack, Odisha
  Matriculation; **Percentage: 82%** Apr' 2020 – Mar' 2021
